25X1A

[redacted] comment. The tabulation shows that 5,635 tons of bricks, 1,776 tons of gravel, 1,377 tons of splitting (sic) and 30 tons of tubes were shipped from the Magdeburg district to Bau Union Nord for the Ruegenhafen project in April 1953. Another 2,486 tons of bricks and 2,079 tons of bricks were shipped to the coast and Magdeburg and the coast respectively. It is believed that at least part of these shipments were for Bau Union Nord. Interesting also is the shipment of 300 tons of equipment which was sent on Soviet Army orders from Barby to Bittkau and possibly included equipment for a Soviet engineer unit in Barby. The unit probably transferred from Barby to Bittkau for summer training at the training site.
